 RAL 7016  
anthracite grey  
gloss

- 
- A tall, grey, classic steel column radiator is mounted on a warm orange wall. The radiator has a series of vertical columns connected by a top and bottom rail. It is supported by two chrome legs at the base. To the left, a wooden side table holds a vase of greenery. To the right, a dark grey sofa with an orange cushion is visible, along with a large green plant and a dark cabinet. The floor is made of dark wood.
- classic steel column radiator
  - very versatile in both modern and period settings
  - ideal for most applications
  - available in white aluminium (RAL 9006) within 3 days
  - a range of colours are available within 20 days

## about **APOLLO**

**APOLLO** Radiators is one of the leading independent distributors of radiators and towel rails in the UK.

At **APOLLO** Radiators the emphasis is on quality, available from stock.  
Our standard stock ranges are delivered to merchants within 3 to 5 working days.

The latest design standards are incorporated into each radiator, and every **APOLLO** radiator undergoes a detailed production process to ensure the highest quality standards are met.

**APOLLO** Radiators distributes throughout the UK to a wide range of independent merchants, as well as the national merchant groups.

**APOLLO** Radiators is dedicated to increasing the number of quality, value for money products available to our customers.

**“the bitterness of poor quality remains long after the sweetness of low price is forgotten”**

## terms and conditions

All prices are in Sterling.  
All prices are subject to VAT

There is no carriage charge for delivery to the UK mainland.

The manufacturing warranty for most products is 5 years, the notable exception being electrical products which have a warranty for 12 months.

After delivery by **APOLLO** Radiators, if goods are damaged in further transit or on-site, this is not covered by the warranty.

The warranty assumes fitting by an accredited and qualified tradesman and covers all manufacturing defects caused by faulty materials or workmanship, and will commence from the date of purchase from your wholesaler.

Please ensure the correct fixings for your wall type are used with the radiator brackets supplied; consult a professional or expert if unsure.

Adjusting pipework prior to delivery - whilst we endeavour to ensure all pipe centre dimensions are correct, manufacturing tolerances require that we strongly recommend pipe work is not altered or adjusted until the new radiator or towel rail is fixed in its final position. **APOLLO** Radiators will not accept responsibility for any claims relating to installation of pipework prior to the fixing of the radiator.

Any returns of goods which are not required will be subject to 20% handling and carriage charges.  
Bespoke Specials and Coloured Radiators are not returnable. (Sealed electric products and firenze cast iron radiators are assembled to order and as such, are classed as bespoke specials).

Standard Terms and Conditions apply, these are available on request.

Due to a policy of continuous improvement we reserve the right to change specifications and prices without prior notice.
